## Senior Software Engineer

📞 7204728764    ✉️ mohitsaran07@gmail.com    in linkedin.com/in/mohitsaran

🐙 github.com/mohitsaran    📍 Bangalore, India

Over **7.5 years** of work experience in building **large-scale web Frontend** and **Backend** in leading companies in the space of **Logistics, Healthcare** and **Retail**. Worked in small teams to deliver a number of products while demonstrating leadership and teamwork. Skilled at continuous **integration, deployment** and **agile development**.

### 🧠 Skills

JavaScript | HTML5 | CSS | React.js | Python(Django) | Node(Express .Js) | Google Cloud Platform  
Docker | Redis | PubSub | Microservices | Web Development | Team Management

### 📁 Professional Experience

#### Lowe's India, Senior Software Engineer [🔗](#)

2019 – Present | Bengaluru, India

Lowe's Companies, Inc. is a FORTUNE® 50, home improvement company. Lowe's India focuses on technology, analytics and shared services.

##### Role & Responsibilities:

- Implementing Full stack web application development with **React, Redux, FusionCharts, Express.js, Redis, Docker, PostgreSQL**.
- Collaborating with **UX teams** to create interactive applications and developed server-side logic and APIs.
- **Reduced the manual effort** of multiple teams by **90%** by writing cron scripts that run on daily, weekly and monthly basis, to ingest the data from multiple data sources into **PostgreSQL** database.
- Determine developer requirements and specs, estimate time, and convert designs into Frontend code. Work together in teams to carry out ideas and tasks.
- Worked in **agile** framework, collaborating with business and research teams in **story grooming, reviewing story, acceptance criteria and performance metrics**.
- We created a microservices architecture application using the **Molecular Microservice** framework approach and containerised it for deployment on **Kubernetes**.

##### Technology:

**React.js, MaterialUI, Webpack, Express.js | HTML5, CSS, JavaScript, Python(Django) | Google Cloud Platform, Redis Server, Docker, PostgreSQL, JWT & OAuth SSO.**

#### Oracle Cerner, Associate Senior Software Engineer [🔗](#)

2017 – 2019 | Bengaluru, India

Cerner is the leading U.S. supplier of health care information technology solutions that optimize clinical and financial outcomes.

##### Role & Responsibilities:

- Created Web application with **HTML5, JavaScript, jQuery, Bootstrap 4, CSS3 & Python(Django)**. I turned the design team's **UX wireframes** and mockups into **responsive, interactive features**.
- Collaborated with an agile team to transition an outdated tool to a modern, **responsive**, and **interactive application**.
- Ability to handle multiple tasks and assignments concurrently in cross-functional teams and a **flexible team player** able to communicate with all levels of personnel.
- Creation of new features, mostly the UI and backend logic, in accordance with the specifications.
- Setup **celery** for **asynchronous tasks**, **redis server** for **caching static** data to load faster with web applications and **Elastic Search** to store, search, and analyse big volumes of data.

## Technology

HTML5, CSS3, JavaScript, jQuery, Bootstrap 4 | Python[Django], PostgreSQL, Nginx, Gunicorn.

CityXfer, Software Engineer [🔗](#)

2015 – 2017 | Bengaluru, India

CityXfer is an intra-city logistics company that specialises in volumetric product delivery by utilising cutting-edge technology.

### Role & Responsibilities:

- **Automated procedure by 68%** which helped in managing 10x bookings without increasing Operations headcount.
- Build a technology for **scale of business with 43%**, which help the operation team to deliver on given SLA.
- Responsible for owning some key services and actively contributed to other services like operations, which help me to build the automated process using technology.
- Planning and doing the **root cause analysis** of various issues, giving valuable suggestion to maximize reusability of the tool.
- Build a Web application using **Python [Django], HTML5, JavaScript, Bootstrap & Ajax** with cross browser support/capability.

### Technology:

HTML5, CSS3, JavaScript, jQuery, Bootstrap 3 | Python(Django), PostgreSQL, Apache.

## Certificates

- JavaScript Algorithms and Data Structures [🔗](#)
- Google Cloud Platform Fundamentals [🔗](#)
- Certified Ethical Hacker (ECC1978524063)
- Front-End Web UI Frameworks and Tools [🔗](#)
- Website Development with HTML & CSS [🔗](#)

## Awards

Top Contributor Award, Lowes	2020
Individual Excellence Award, Lowes India	2022
Champion Award, Lowes India	2022
Team Excellence Award, Lowes India	2021
SPOT Award, Lowes India	2020
